Strong: PHP, JavaScript, C, C++, SQL
Good: Korn shell, OpenBSD server administration
Fair: Python, Matlab/Octave, FORTRAN 90, C#, Java,
BASIC, Pascal, Microsoft Windows server
administration

Personal Statement

I am a very open and communicative person, always striving to do what I do as best and as *consistent* as possible while remaining goal-oriented. In times of crisis, I am known to remain calm and come up with steps necessary to get out of the crisis, if necessary also helping others find the way out. As my strong point I see my ability to quickly immerse myself into new fields of knowledge, quickly picking the parts I need to complete a specific task. I strongly believe that goals are met and problems are solved by means of structured thinking and acting, not by means of having a specific skillset.

Other Skills

Fluent in both German (mother tongue) and English. Basics in French. I have also been working as a wedding photographer during weekends every now and then.

Interests

Photography and martial arts; geocaching as of late. I have the long-term personal goal of attaining a pilot's license.
